LEGENDA/ EXPLANATION OF ICONS

Recycle/Sustainable

We pay a lot of attention to sustainability and strive for a collection with sustainable products of high quality. That is why we use sustainable and recycled materials as much as possible in the development of our products.

Organic

The term “organic” actually means the same as “biological”. This means that when making organic / biological substances, people, animals and the environment are taken into account as much as possible.

BPA Free

Our products are free from BPA (Bisphenol A). BPA is a chemical that is often used to make plastic more elastic, but when ingested in large quantities, these substances can be harmful to health. Of course we do not want this and that is why our products are always BPA free.

100% Natural

Our materials are 100% natural as much as possible. This means that no chemical and synthetic materials are used in production, for example, 100% natural cotton.

Eco Friendly/ FSC

We use FSC wood for our wooden toys. FSC stands for the Forest Stewardship Council: this is an international organization that stands for the conservation and maintenance of forests worldwide. Our wood is sustainably produced and therefore environmentally friendly.

Oeko tex

We believe it is important to make products that are safe for (the health of) children. That is why you will find the Oeko-tex label on almost our entire clothing line. This means that these items are made of materials that do not contain harmful substances.

Dermatologically tested

Dermatologically tested means that a dermatologist has carefully analyzed how your child's skin reacts to the product, the ingredients and any development of allergic effects.

BAMBAM: Because we care

BamBam is more than a brand, BamBam is a lifestyle - a way of life. Our products are beautiful, sustainable, honest and produced with a lot of love.

This is why we use as much organic cotton as possible for the production of our clothing and accessories and use FSC wood for our toys.

BamBam is designed in the Netherlands by a small team of designers. Together we look at the quality and method of production. We use the softest fabrics and the most beautiful materials. A great fit and high wearing comfort are very important to us.

We see it as our mission to deliver products that are not only produced in a sustainable and environmentally friendly way, but that are also good for you and your child.
