A collection of linen-wrapped gifts and home decor items. The central focus is a gift wrapped in light brown linen with a large, matching bow. To its right is a gift wrapped in white linen with a white bow. Below these are more gifts, some wrapped in white and others in brown, some with bows and some with twine. The background includes a white lace doily, a small vase with daisies, and a wooden spool. The overall aesthetic is rustic and elegant.

# Linen love story

***Linen Love Story is our collection completely made of 100% linen.***

Linen comes from the flax plant which requires much less water and pesticides than other materials – which makes linen a more sustainable alternative. It is a strong material that lasts to be loved for a long time.
